Employment History

Scrum Master   January 2020 - Present
Dell Technologies Inc. - Chesterbrook, PA

- Servant leader of two software engineering teams providing executive level reporting on OKRs, capacity planning, project burn-down, team velocity, and release delivery.
- Responsible for enacting agile values and practices, ensuring the correct use of Scrum process by running planning meetings, standups, reviews, demos, and retrospectives.
- Serve as an agile coach promoting Scrum, assisting team leads and product owners with backlog grooming while providing company-wide expertise on Jira and Confluence.

Scrum Master   February 2018 - January 2020
Comcast Corporation - Philadelphia, PA

- Scrum Master for five software engineering teams including one offshore team (in India) that after six months increased onshore velocity by 30%.
- Drove multiple teams to implement CI/CD pipelines, decreasing one specific team's release cycle from 3 weeks to 3 days.
- Kept AWS costs 50% below budget in 2018 by analyzing usage on a daily basis and following Amazon's suggestions to optimize operations.

- Used retrospectives to streamline production issues, lessening scheduled project interruptions by 20%.
- Launched MoviesAnywhere integration that attracted 50,000 customers within the first month and involved collaboration with fellow Fortune 500 company Walt Disney.

Scrum Master   August 2017 - February 2018
Trellist, Inc. - Wilmington, DE
- Led a portfolio of projects for global clients in a high-risk, fast-paced environment involving remote team members and off-site vendors.
- Used Microsoft Project to capacity plan a cross-functional team of developers, designers, business analysts, copywriters, marketers, and user experience experts while following Scrum, Kanban, and waterfall project management methodologies.
- Followed SDLC process to develop applications, portals, multi-sites, eCommerce systems, and landing pages that involved CMS' TeamSite, Sitefinity, and Wordpress.
- Part of a multicultural global team that launched a Chinese language WeChat site increasing monthly DuPont social media engagement by 14%.

Scrum Master   February 2017 - July 2017
WebLinc, Corporation - Philadelphia, PA
- Managed a $200,000 agile eCommerce build as a Scrum Master collaborating with an external product owner while also fulfilling the role of Project Manager creating detailed project budgets, definitions, estimates, requirements, schedules, and timelines.
- Used Jira to lead a distributed team of cross-functional resources for build and retainer projects forecasting and reporting on utilization, capacity, and budget consumption.
- Documented all aspects of project organization, managed client expectations, and delivered weekly status reports with Excel and Confluence.

Scrum Master   April 2014 - February 2017
Cuker Interactive, LLC - San Diego, CA
- Used Scrum and Kanban to develop web application and eCommerce platforms that attracted hundreds of thousands of unique user visits month over month.
- Led a two-year mobile redesign project with a multi-million dollar budget for nationwide equipment rental company Sunbelt Rentals that led to a 250% increase in leads.
- Daily communication with global client product owners who were employed by multi-million dollar brands using tools like Zendesk, ServiceNow, Slack, and G-Suite.
